

One of the highlights of Singapore Indesign was spending time at **OM, Liang Court**. How We Create was fortunate enough, not only to see their new range, but meet and discuss the design and manufacturing processes with Asia based designers, Silvia Marlia, Gal Tevet and Sean Dix.

Spending time with Hong Kong based, **Silvia Marlia**, we discussed how her designs were inspired for children's furniture brand **SAND**. With beautiful and tactile designs, whereby children are encouraged to independently find and use objects they need and also put them away after use.
